EDUCATION

George Mason University — B.S. Computational and Data Science
GPA: 3.26 | Dean's List: Fall 2025 | Merit Scholarship

May 2027
Fairfax, VA

TECHNICAL SKILLS

Languages & Data: Python, SQL, R, TypeScript | pandas, NumPy, SciPy, DuckDB, dbt Core, Great Expectations | Excel, Tableau

Machine Learning & MLOps: scikit-learn, XGBoost, imbalanced-learn, SHAP, spaCy | MLflow, Evidently, Apache Airflow

Visualization & Apps: matplotlib, seaborn, Plotly, Streamlit | React, Node.js, PostgreSQL, Prisma, Plaid API

Certifications: Anthropic (2026): Claude API, MCP, Claude Code, Claude on Google Cloud & Bedrock | Google Data Analytics courses

PROJECTS

Portfolio: pat-ploypairao.com

GMU AV Inventory Analysis: Two-Year Report

Aug 2025 – Sep 2026

Python | pandas | matplotlib | seaborn | Jupyter | Excel

- Built a reproducible Python pipeline that transformed 1385 inventory forms into 15,277 valid records, applying deduplication rules, documenting corrections, and verifying results against the raw data
- Analyzed inventory across 7 locations and 5 equipment types over two academic years; identified a 13.6% decline in recorded decreases and two rooms accounting for 41.7% of 2025-2026 decreases
- Delivered stakeholder and technical reports plus a 14-slide presentation recommending a barcode tracking system and a pilot program; the initial analysis led to an appointment to the committee designing the system

Financial Portfolio Risk Analysis

Python | NumPy | SciPy | yfinance

- Evaluated a 8 asset, hypothetical \$1M portfolio using 3 risk estimation methods; estimated 1 day 99% Value-at-Risk at \$29,146 tested performance during the COVID crash and 2022 rate shock, and found 25% lower tail risk with diversification to inform a rebalancing recommendation.

SQL Analytics Engineering Warehouse

SQL | dbt Core | DuckDB

- Built a SQL analytics warehouse with dbt and DuckDB, transforming raw seed data into reporting metrics through 19 models across 5 layers; organized data in a star schema, documented data lineage, and validated the pipeline with 132 passing automated test

Ledger — Personal Finance Dashboard

PostgreSQL | TypeScript | Plaid API | React

- Independently built and deployed a personal finance dashboard using live bank data through Plaid; standardized merchant names, reconciled pending and posted transactions, and consolidated around 80 categories into 10 to support 7 alert rules and a 0-100 financial health score.

EXPERIENCE

George Mason University Student Centers — AV Inventory Management Committee
Committee Developer Lead

Fairfax, VA
Jan 2026 – Present

- Appointed after presenting an 8-month inventory analysis to leadership; helped design a Power Apps and SharePoint Lists tracking system with cross-platform barcode scanning and an append-only audit log
- Developed plans for dashboard and quarterly Excel reporting; recommended a 30-day barcode pilot across 3 high-movement locations

George Mason University Student Centers — Event Services
Event Assistant

Fairfax, VA
May 2024 – Present

- Run day-of operations across 7 venues (setup, AV and lighting, troubleshooting, teardown), train event hosts on in-room AV, and coordinate live with University Events, Catering, Housekeeping, Police, and Facilities

CMKL University, AiCE Internship Program
Research Intern

Bangkok, Thailand
July – August 2022

- Implemented a Python facial recognition program adapting the FaceNet TensorFlow model to match faces against a cloud database, and deployed it with a supervisor on Raspberry Pi door controllers; system remains in use at CMKL

LEADERSHIP

Beta Theta Pi, Epsilon Mu Chapter — George Mason University
Chapter President

Fairfax, VA
Nov 2024 – Dec 2025

- Functioned as the chief executive officer of a nearly 40-person chapter, overseeing and managing all aspects of internal operations; behaved as the spokesperson and external “face” of the chapter.
- Implemented a new budgeting system to recover from a \$5K inherited debt (25% of a semester's dues); passed with 100% chapter approval while still funding normal operations and hosted formal awards ceremony

Interfraternity Council — George Mason University
Vice President of Recruitment

Fairfax, VA
May 2024 – Dec 2024

- Secured OmegaFi recruitment software for all 15 IFC fraternities and replaced chapter-by-chapter recruiting with a centralized pool; 100+ new members joined in the first semester on the system
